MEMORANDUM FOR: [REDACTED]

SUBJECT : STC/ICB publication, "Exploitation of the  
International Communist Movement by the  
Soviet Intelligence Services"

25X1A9a 1. I have read, though hastily, your paper, "Exploitation of the  
Communist Movement by the Soviet Intelligence Services", with great  
interest and profit. Most importantly I have had it carefully reviewed  
by [REDACTED] of the ONE Staff and attach a copy of his report to me.

25X1A9a 2. Normally DD/I would not take any initiative in further distri-  
bution of studies prepared on your side of the house, but this one does  
seem to me to deserve fairly widespread circulation in the intelligence  
community and among certain of its prime consumers. If you have not  
already done so, I suggest that a member of your Staff consult with  
[REDACTED] of OCD as to an appropriate distribution pattern. OCD would  
be happy to carry out the physical dissemination.

ROBERT AMORY, JR.  
Deputy Director/Intelligence
